### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Joe McKinney Muncy, attorney of record, on 10-7-04.

The application has been amended as follows:

- In claim 9, line 3, the limitation --*a second resistor*-- is changed to "**a resistor**".
- In claim 9, line 4, the limitation --*a control voltage*-- is changed to "**the control voltage**".
- In claim 9, line 8, the limitation --*second resistor*-- is changed to "**resistor**".

2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose an apparatus and method thereof comprising elements being configured as recited in claims. Specifically, none of the prior art teaches or fairly suggests, among other things, the limitations "*a compensating unit for generating a compensating voltage and having a first terminal and a second terminal, the first terminal being connected to the second terminal of the second resistor; an OP amplifier having an output terminal connected to the second terminal of the second resistor, a first input terminal connected to the second terminal of the first resistor, and a second input terminal connected to the second terminal of the compensating unit; and a current source connected to the second terminal of the compensating unit to provide a compensating current to the compensating unit*" as recited in claims 1 and 9.

Art Unit: 2816

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
